

VICTORY GARDEN

Stage 1: Lay tarpaulin to deaden grass and allow 'easy' digging

Stage 2: Dig over and mix with manure, leave over Christmas

Stage 3: Weed and plant good, hearty vegetables

Stage 4: Harvest in time for VE Day celebrations!

During World War 2 the government ran a 'Dig for Victory' campaign. They asked anyone with spare land to plant fruit and vegetables to combat food shortages – schools were no exception. Here we hope to recreate our own WW2 vegetable garden with the help of our RVHS land army of students and staff.
